LEGRAND’S ENVIRONMENTAL COMMITMENTS

• Incorporate environmental management into our industrial sites
  Of all Legrand sites worldwide, over 85% are ISO 14001-certified (sites belonging to the Group for more than five years).

• Offer our customers environmentally friendly solutions
  Develop innovative solutions to help our customers design more energy efficient, better managed and more environmentally friendly installations.

• Involve the environment in product design and provide informations in compliance with ISO 14025
  Reduce the environmental impact of products over their whole life cycle.
  Provide our customers with all relevant information (composition, consumption, end of life, etc.).

REFERENCE PRODUCT

<table>
<thead>
<tr>
<th>Function</th>
<th>Establish, support and interrupt for 20 years rated currents in normal conditions of circuit characterized by a 250V low voltage with rated load not exceeding 16A.</th>
</tr>
</thead>
<tbody>
<tr>
<td>Reference Product</td>
<td>![Reference Product Image]</td>

</tbody>
</table>

The company reserves the right to change specifications and designs without notice. All illustrations, descriptions, dimensions and weights in the document are for guidance and cannot be held binding on the company.

PRODUCTS CONCERNED

The environmental data is representative of the following products:

<table>
<thead>
<tr>
<th>Catalogue Numbers</th>
</tr>
</thead>
<tbody>
<tr>
<td>• 1 gang : 8 380 11</td>

<tr>
<td>• 3 gang : 8 380 31</td>
</tr>
<tr>
<td>• 4 gang : 8 380 41</td>
</tr>
</tbody>
</table>
CONSTITUENT MATERIALS

This Reference Product contains no substances prohibited by the regulations applicable at the time of its introduction to the market. It respects the restrictions on use of hazardous substances as defined in the RoHS directive 2011/65/EU amended by delegated directive (EU) 2015/863, and its amendment 2017/2102/EU.

| Total weight of Reference Product | 91 g (all packaging included) |

Estimated recycled material content: 18 % by mass.

MANUFACTURE

This Reference Product comes from a site that has received ISO14001 certification.

DISTRIBUTION

Products are distributed from logistics centres located with a view to optimize transport efficiency. The Reference Product is therefore transported over an average distance of 1590 km by road from our warehouse to the local point of distribution into the market in Saudi Arabia.

Packaging is compliant with applicable regulation. At their end of life, its recyclability rate is 94 % (in % of packaging weight).

INSTALLATION

For the installation of the product, only standard tools are needed.

USE

Under normal conditions of use, this product requires no servicing, no maintenance or additional products.
END OF LIFE

The product end of life factors are taken into account during the design phase. Dismantling and sorting of components or materials is made as easy as possible with a view to recycling or failing that, another form of reuse.

- **Recyclability rate:**
  
  Calculated using the method described in technical report IEC/TR 62635, the recyclability rate of the product is estimated at 95%. This value is based on data collected from a technological channel operating on an industrial basis. It does not pre-validate the effective use of this channel for the end of life of this product.

  Separated into:
  
  - plastic materials (excluding packaging): 54%
  - metal materials (excluding packaging): 10%
  - packaging [all types of materials]: 31%

ENVIRONMENTAL IMPACTS

The evaluation of environmental impacts examines the stages of the Reference Product life cycle: manufacturing, distribution, installation, use and end of life. It is representative of products marketed and used in Saudi Arabia.

For each phase, the following modelling elements were taken in account:

<table>
<thead>
<tr>
<th>Phase</th>
<th>Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>Manufacture</td>
<td>Materials and components of the product, all transport for the manufacturing, the packaging and the waste generated by the manufacturing.</td>
</tr>
<tr>
<td>Distribution</td>
<td>Transport between the last Group distribution centre and an average delivery point in the sales area.</td>
</tr>
<tr>
<td>Installation</td>
<td>The end of life of the packaging.</td>
</tr>
<tr>
<td>Use</td>
<td>- Product category: PSR-0005-ed2-EN-2016 03 29 § 3.5 - Switches.</td>
</tr>
<tr>
<td></td>
<td>- Use scenario: non-continuous operation for 20 years at 50% of rated load during 30% of the time. This modelling duration does not constitute a minimum durability requirement.</td>
</tr>
<tr>
<td></td>
<td>- Energy model: Electricity Mix; Syria - 2009.</td>
</tr>
<tr>
<td>End of life</td>
<td>The default end of life scenario maximizing the impacts.</td>
</tr>
<tr>
<td>Software and database used</td>
<td>EIME &amp; database CODDE-2018-11</td>
</tr>
